## EXPERIENCE

### Jr. Software Engineer | Mazda consultancy services

December 2023 - April 2024

Project: Travelodeal

Contributed to the identification and resolution of bugs in the Travelodeal product.

Received recognition for excellence in problem-solving and bug resolution.

Project: Admin Side CMS

Developed and enhanced the Invoice module, ensuring robust functionality and improved user experience.

### Software Engineer (Intern) | Citta Solution Pvt. Ltd

July 2023 - November 2023

At Citta Solutions, I have been learning Dotnet Core MVC and applying my skills to the ProBro Property app.

My responsibilities include creating and calling stored procedures to list data from the database and working on various mini-modules, contributing to the overall development and functionality of the application.

---
